

College Courses, JCC

Placement Test: ALCS offers several college level courses that have been described in detail within the curriculum guide. There is a placement test called the Accuplacer that is given in the spring which sophomores and juniors can take. Students sign up for this test in their English classes and then it is coordinated and scheduled in the various computer labs here at ALCS. Students will be required to have their social security numbers the day of the test. Students will know what their score is immediately upon finishing this on-line test. If they do not meet the minimum requirements, they are allowed one re-take. Please refer to the course descriptions to see which courses require the Accuplacer and also the minimum score requirement.

Registration: In early September, JCC Registration Forms will get filled out by the student highlighting which course/courses they have signed up for. They must fill this out accurately to properly enroll in the course. Parents will also need to sign this registration and fill out a Certificate of Residency which is on the back page of the registration form. This process is repeated for spring courses. The Certificate of Residency is not required a second time during the school year.

*If a student is in the top 10% of their class, they are exempt from taking the Reading and Essay Accuplacer.

Current Offerings:

Art 1590: Ceramics	HIS 1530: US History
